

# Budgeting & Credit Education P1

## December 18, 2012

Alex hosted CCCF's first December Budgeting Seminar at the CCCF office. Attendees were seated in the conference room and provided with free materials to accompany the presentation. The presentation covered information for planning a secure financial future, including an overview of the 9-step program to reach financial security.

Attendees were especially keen to learn about the different levels of financial health, their money color, and the effectiveness of implementing a budget plan.
